Hi There!

Welcome to Goel Allied Industries, a trusted name in high-quality medical device manufacturing.

We specialize in sterile, disposable products like I.V. Sets, I.V. Cannulas and Disposable Syringes, marketed under our brand "AI-Dispo."

With WHO, CDSCO, ISO 9001, CE, GMP certification, advanced manufacturing facilities, in-house ETO sterilization, and a dedicated Quality Lab, we ensure products meet global standards. Backed by experienced professionals and reliable resources, we operate smoothly while prioritizing hygiene, worker safety, and product excellence.

At Goel Allied Industries, your trust drives our quality.

About Company

Welcome to Goel Allied Industries, where innovation meets trust in manufacturing of high-quality medical devices. At Goel Allied Industries, we are committed to patient safety and product excellence. Our state-of-the-art facility specializes in the production of sterile disposable medical products.

Proudly marketing our products under the trusted brand name "AI-Dispo", we adhere to the highest standards of quality and safety. Most importantly, we prioritize the health and safety of our workers, maintaining strict hygiene protocols and mandatory use of safety gear during production. We are an WHO, CDSCO, GMP, CE and ISO 9001 certified company, equipped with cutting-edge automatic machinery, advanced Clean Room areas, in-house sterilization process, and a dedicated Quality Lab to meet both national and international regulatory standards.

Our team of skilled professionals, reliable access to premium raw materials, and strong financial partnerships ensure smooth and efficient operations.

At Goel Allied Industries, quality is not just a promise — it's our way of life.

Precision, Safety And Reliability — Every Life Counts

www.aidispo.com

Vision

To be a global leader in healthcare industry, delivering world-class disposable medical solutions with a commitment to safety, reliability, quality, and trust.

Mission

To consistently provide reliable and precise high-quality disposable medical devices that meet the evolving needs of healthcare professionals worldwide, ensuring excellence at every step.

Objectives

- To maintain the highest standards of manufacturing through continuous innovation and advanced technologies.
- To ensure full compliance with all national and international healthcare regulations and quality benchmarks.
- To foster long-term partnerships by exceeding customer expectations in product performance, service, and reliability.
- To promote a culture of safety, hygiene, and sustainability throughout our workflow.
- To drive manufacturing excellence by empowering our workforce and investing in skills, safety, and development.

Our Products

At Goel Allied Industries, we are dedicated to delivering precision, safety, and reliability through our range of sterile, disposable medical products. Crafted with advanced manufacturing processes and strict quality control, our products are trusted by healthcare professionals worldwide.
